

MAKE YOUR EVENT SHINE BRIGHTER

BRP Entertainment Full Service

Our Full Service offering is a comprehensive, end-to-end entertainment expertise designed to support every stage of your event beginning with a site consultation to understand your venue, audience, and goals, supported by market and competitor research and expert entertainment consulting to help you select the right talent.

Once direction is established, we streamline the entire administrative process by handling offers, contracting and payments, reducing risk and simplifying paperwork. From there, we manage sourcing and coordination—connecting you with trusted vendors, production partners, and resources, while overseeing communication and logistics to ensure seamless collaboration across all parties.

Next, we provide full advance services, including artist travel and lodging, hospitality coordination (such as green rooms, catering or buyouts, security, and privacy), merchandise coordination, and detailed day-of-show scheduling with a comprehensive itinerary for all stakeholders.

To ensure flawless execution on event day, full service also includes BRP Representative On-Site Coverage. Our on-site representative serves as the central liaison between artists, venue staff, vendors, and production teams, managing real-time communication, overseeing merchandise settlement, coordinating back-up plans and strategies when needed, and providing hands-on support from load-in through load-out.

The result is a fully managed, hands-free experience from concept to execution - ensuring every detail is handled, every stakeholder is aligned, and your event runs smoothly from start to finish.
